

# CURRENT LIST of MEDICAL LITERATURE

Vol. 15

July 23, 1948

No. 4

## Subject Groups According To Journals

- 1. Allergy
- 2. Anatomy; Histology
- 3. Anesthesia
- 4. Anthropology
- 5. Aviation Medicine
- 6. Bacteriology; Parasitology
- 7. Biology
- 8. Cancer
- 9. Cardiovascular System
- \* 10. Chemistry; Physics
- \* 11. Dentistry; Stomatology
- 12. Dermatology
- 13. Diagnosis; Clinical Methods
- 14. Digestive System
- 15. Endocrinology
- 16. Forensic Medicine; Toxicology
- 17. Genetics; Eugenics
- \* 18. General
- 19. Geriatrics
- 20. Gynecology; Obstetrics
- 21. Hematology
- 22. History; Bibliography; Biography
- 23. Hospitals
- 24. Immunology; Serology
- 25. Industrial Medicine
- 26. Infectious Diseases
- \* 27. Medicine.
- 28. Military and Naval Medicine
- 29. Miscellaneous
- 30. Musculoskeletal System
- 31. Neurology; Psychiatry
- 32. Nursing
- 33. Nutrition
- 34. Ophthalmology
- 35. Otorhinolaryngology; Phoniatry
- 36. Pathology
- 37. Pediatrics; Child Welfare
- \* 38. Pharmacology
- \* 39. Physiology
- 40. Psychology
- \* 41. Public Health; Epidemiology
- 42. Radiology
- 43. Respiratory System
- 44. Surgery, General
- 45. Therapeutics
- 46. Tropical Medicine
- 47. Tuberculosis
- 48. Urology
- 49. Venereal Diseases (see also 12. Dermatology)
- \* 50. Veterinary Medicine

THE ARMY MEDICAL LIBRARY  
Washington, D. C.

**THE ARMY MEDICAL LIBRARY**  
**PHOTODUPLICATION SERVICE**

CURRE  
Vol. 15

The purpose of photoduplication is to extend the services of the Library to those at a distance who cannot come in person to consult its collections. In the case of the Army Medical Library it provides an economical and efficient means of contributing more largely to the advancement of medicine and the public welfare.

In order that photoduplication may render the greatest possible aid to those engaged in medical research, the following policies in regard to its conduct will be observed:

1. The Library will loan without charge single microfilm copies of original articles published in medical periodicals not available locally. Such loan requests should be routed through libraries, governmental agencies, or research institutions. The microfilm, being a part of the duplicate collection of the Library, may be used for ninety days and will be returned to the Library at the end of the loan period.
2. Requests for microfilms and photoprints for official business in the Department of Defense will be filled free of charge.
3. Microfilms will also be sold to those desiring to retain them, at a rate of 50 cents for each 50 pages or fraction thereof from a single article.
4. For the benefit of those not having facilities to read microfilms, photoprint copies of separate articles from periodicals will be supplied at a charge of 50 cents for each 10 consecutive pages or fraction thereof from a single article.
5. Except when the order is accompanied by the written permission of the copyright owner, the Army Medical Library will not reproduce books protected by copyright, or entire periodical issues, nor will it reproduce excerpts from periodical issues within 6 months of their publication date.

**INSTRUCTIONS**

All requests, including those for free loans, must be submitted on Army Medical Library official order blanks (AML Form 48). A supply will be furnished on request.

All purchase orders must be accompanied by payment in cash or by check or money order made payable to the treasurer of the United States, or by Army Medical Library Coupons, which may be ordered in any quantity from the Library at 50 cents each.

Federal agencies will be billed periodically by Standard Form 1080 (Voucher).

Refunds for material the Library is unable to supply will be made by coupons unless cash refund is specifically requested.

---

The CURRENT LIST OF MEDICAL LITERATURE is for sale by the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C. Price: \$3.00 per year (\$3.75 foreign); 10 cents per single copy. All communications regarding subscriptions should be addressed to the Superintendent of Documents.

Published weekly by the ARMY MEDICAL LIBRARY 7th Street & Independence Ave., S. W., Washington 25, D. C., as an intraservice publication of the Department of the Army. Lists all articles of medical interest contained in current journals received. Subject index provided monthly. Exchange invited.

CURRENT LIST OF MEDICAL LITERATURE  
Vol. 15, No. 4 July 23, 1948

## 10. Chemistry; Physics

Biochem. J., Lond., 1948, 42: No. 1

NOMENCLATURE of amino-acids. 1.  
LEVY, G. A. The liberation of glucuronic acid from conjugated glucuronides by  $\beta$ -glucuronidase. 2-5.

STAUB, A. M., & RIMINGTON, C. Preliminary studies on the carbohydrate-rich fractions of ox serum. 5-13.

GIBSON, Q. H. The reduction of methaemoglobin in red blood cells and studies on the cause of idiopathic methaemoglobinaemia. 13-23.

HOPKINS, F. G., & MORGAN, E. J. Studies on glyoxalase; a new fact. 23-7.

SWYER, G. I. M. Anti-histamine effect of sodium salicylate and its bearing upon the skin-diffusing activity of hyaluronidase. 28-32.

SWYER, G. I. M. Failure of *in vitro* inhibition of hyaluronidase by salicylates. 32-5.

VERZÁR, F., & WENNER, V. The influence in *vitro* of deoxycorticosterone on glycogen formation in muscle. 35-41.

VERZÁR, F., & WENNER, V. Glycogen production from glucose-1-phosphate by liver and muscle of normal and adrenalectomized animals. 42-8.

VERZÁR, F., & WENNER, V. The action of steroids on glycogen breakdown in surviving muscle. 48-51.

ALDRIDGE, W. N. A new method for the determination of 1,2-dithiols. 52-8.

ARCHER, H. E., CHAPMAN, L. [et al.] The estimation of urethane in blood. 58.

BAILEY, K., & WEBB, E. C. Purification of yeast hexokinase and its reaction with  $\beta$ -dichlorodiethyl sulphide. 60-8, pl.

BOYLAND, E., & McDONALD, F. F. The metabolism of the lungs from normal mice and from mice exposed to phosgene. 68-71.

JACOB, J. J. C. The electrophoretic analysis of protein extracts from striated rabbit muscle; denaturation in acetate buffers. 71-9.

SAUL, J. A., & TRIKOJUS, V. M. The conversion of DL-3:5-diido-4-hydroxyphenylactic acid into an analogue of thyroxine. 80.

MACKWORTH, J. F. The inhibition of thiol enzymes by lachrymators. 82-90.

MACKWORTH, J. F., & WEBB, E. C. The inhibition of serum cholinesterase by alkyl fluorophosphonates. 91-5.

WEBB, E. C. The action of alkyl fluorophosphonates on esterases and other enzymes. 96-8.

SYNGE, R. L. M. The synthesis of some dipeptides related to gramicidin S. 99-104.

HUNT, J. N. A method for estimating peptic activity in gastric contents. 104-9.

SPINKS, A. The persistence in the blood stream of some compounds related to suramin. 109-16.

BUTLER, J. A. V., DODDS, E. C. [et al.] The action of chymotrypsin and trypsin on insulin. 116-22.

BUTLER, J. A. V., DODDS, E. C. [et al.] The action of pepsin on insulin and the plastein question. 122-7.

VAN HEYNINGEN, W. E. The biochemistry of the gas gangrene toxins; development of a medium suitable for the large scale production of the toxins of Clostridium welchii type A. 127-30.

VAN HEYNINGEN, W. E., & BIDWELL, E. The biochemistry of the gas gangrene toxins; the reaction between the  $\alpha$ -toxin, lecithinase, of Clostridium welchii and its antitoxin. 130-40.

BIDWELL, E., & VAN HEYNINGEN, W. E. The biochemistry of the gas gangrene toxins; the  $\gamma$ -toxin, collagenase, of Clostridium welchii. 140-51.

CHARLWOOD, P. A. Electrophoresis of collagenase preparations. 150.

WARREN, F. L., GOULDEN, F., & ROBINSON, A. M. The colorimetric determination of stilboestrol and dienoestrol. 151-6.

GUTFREUND, H. The osmotic pressure of insulin solutions. 156-60.

GALE, E. F. Correlation between penicillin resistance and the ability to assimilate glutamic acid in *Staphylococcus aureus*. Suppl., i.

KLYNE, W., & PATERSON, J. Y. F. Further observations on the steroids of pregnant mares' urine. Suppl., i.

PATERSON, J. Y. F., & KLYNE, W. The isolation from the urine of pregnant mares of allo-pregnane-3,  $\beta$ -ol-20-one sulphate. Suppl., ii.

JOHNS, A. T. The production of propionic acid by decarboxylation of succinic acid in a bacterial fermentation. Suppl., ii.

BLASCHKO, H., & STANLEY, G. H. S. The decarboxylation of  $\beta$ -(2:5-dihydroxyphenyl)-alanine. Suppl., iii.

BLASCHKO, H., & STANLEY, G. H. S. Decarboxylation of tyrosine and its derivatives by mammalian and bacterial enzymes. Suppl., iii.

LEVY, G. A., KERR, L. M. H., & CAMPBELL, J. G. Increased  $\beta$ -glucuronidase in response to tissue injury. Suppl., iv.

KREBS, H. A. Observations on the decarboxylation of glutamine by *Clostridium welchii*. Suppl., v.

ELLIOTT, W. H. Adenosinetriphosphate in glutamine synthesis. Suppl., v.

SPINKS, A. Persistence of suramin analogues in the blood stream. Suppl., vi.

GAGE, J. C., ROSE, F. L., & SCOTT, M. M. The estimation of suramin in plasma. Suppl., vi.

KLATZKIN, C., NORRIS, F. W., & WOKES, F. Changes in nicotinic acid content of cereals occurring during germination. Suppl., vii.

GRAY, C. H., & THORPE, E. F. J. The fate of 2:4-dimethyl-3-carbethoxy-pyrrole-5-carboxylic acid and 2:4-dimethyl-5-carbethoxy-pyrrole-3-carboxylic acid in the rabbit. Suppl., vii.

GRAY, C. H., & HOLT, L. B. The preparation of coproporphyrin III from toxic filtrates of *Corynebacterium diphtheriae* cultures. Suppl., viii.

ELLINGER, P., & ABDEL KADER, M. M. The formation of nicotinamide by *B. coli*. Suppl., ix.

HALL, D. A. The biosynthesis of a member of the folic acid group of factors. Suppl., ix.

BUTLER, J. A. V., & STEPHEN, J. M. L. An apparatus for the preparative electrophoretic separation of amino-acids, peptides and proteins. Suppl., x.

POPJAK, G. Synthesis of phospholipids in the foetus. Suppl., xi.

CONDSEN, R., GORDON, A. H., & MARTIN, A. J. P. Separation of acidic amino-acids by means of a synthetic anion exchange resin. Suppl., xi.

BRADFORD, N. M., & DAVIES, R. E. The site of formation of gastric HCl as determined by indicators. Suppl., xii.

DAVIES, R. E., & TURNER, C. Secretion of water by isolated gastric mucosa. Suppl., xiii.

MCDONALD, I. W. Absorption of ammonia from the rumen of the sheep. Suppl., xiii.

SCARIBRICK, R., BALDWIN, E., & MOYLE, V. Separation and estimation of saturated, stearyl fatty acid by buffered partition columns. Suppl., xiv.

DAVIDSON, J. N., & RAYMOND, W. Nucleic acids labelled with P<sup>32</sup> and N<sup>15</sup>. Suppl., xiv.

DAVIDSON, J. N., LESLIE, I., & WAYMOUTH, C. The nucleic acid content of fibroblasts growing in vitro. Suppl., xv.

MARTIN, N. H. Bilirubin-serum protein complexes. Suppl., xv.

FRAENKEL, G. Folic acid, B<sub>12</sub> conjugate, B<sub>1</sub> and anti-anæmia liver concentrates in the nutrition of the mealworm, *Tenebrio molitor*. Suppl., xvi.

ENNOR, A. H., & STOCKEN, L. A. Some observations on the Barratt reaction for the estimation of creatine. Suppl., xvi.

PETERS, R. A., & WAKELIN, R. W. The effect of some thiol compounds upon trypsin, chymotrypsin and chymotrypsinogen. Suppl., xvi.

LEES, H. The possible importance of copper in soil nitrification. Suppl., xvii.

SMITH, E. L., & BIDE, A. E. Biosynthesis of the penicillins. Suppl., xviii.

MEAD, T. H., & STACK, M. V. Penicillin precursors in corn-steep-diquor. Suppl., xviii.

ARNSTEIN, H. R. V., CATCH, J. R., & COOK, A. H. The biosynthesis of penicillins by *Penicillium notatum*. Suppl., xviii.

CHIU, C. Y., & NEEDHAM, D. M. The effect of adrenal cortical hormone in vitro on carbohydrate synthesis in liver slices. Suppl., xix.

REID, E., SMITH, R. H., & YOUNG, F. G. The hexokinase-inhibiting activity of diabetogenic pituitary extracts. Suppl., xix.

KERLY, M. The hexokinase activity of retinal extracts. Suppl., xx.

COHEN, J. A., & NEEDHAM, D. M. The effect of adrenaline injection on glucose utilization by muscle. Suppl., xx.

MILLS, G. T. The  $\beta$ -glucuronidase activity of ox spleen. Suppl., xx.

BRUES, A. M. Pathologic effects of ionizing radiations and radioactive materials. Suppl., xxii.

LEES, H. A simple automatic soil percolator. Suppl., xxiii.

ROBINSON, A. M., & WARREN, F. L. A simple apparatus for the extraction of corticosteroid-like substances from urine. Suppl., xxiii.

Canad. J. Res., 1948, 26: No. 4 Sect. B (Apr.)

GAUDRY, R. The synthesis of D,L- $\alpha$ -amino- $\epsilon$ -hydroxycapric acid and a new synthesis of D,L-lysine. 387-92.

FISCHER, H. O. L., & NEWCOMBE, A. G. The synthesis of L- $\alpha$ -guaiacyl glycerol ether. 393-5.

HOLMES, H. L., & STOIK, J. L. The synthesis of possible degradation products of morphine and metathebaine. 396-400.

PUDDINGTON, I. E. The thermal decomposition of carbohydrates. 415-31.

MacDONALD, S. F., & CHECHAK, A. J. A note on the preparation of benzoxazolone and of 2,8-dihydroxynaph[1,2]oxazole. 432.

I. Am. Chem. Soc., 1948, 70: No. 5 (May)

ALBERTY, R. A. A quantitative study of reversible boundary spreading in the electrophoresis of proteins. 1675-82.

SPIES, J. R., & CHAMBERS, D. C. Photochemistry of tryptophan, p-dimethylaminobenzaldehyde and reaction products in sulfuric acid solution. 1682-5.

GEISSMAN, T. A., & FUKUSHIMA, D. K. Flavonones and related compounds; the oxidation of 2'-hydroxy-chalcones with alkaline hydrogen peroxide. 1686-9.

CAIRNS, T. L., JOYCE, R. M., & SCHREIBER, R. S. The action of alkali on cyclohexanones. 1689.

SARET, L. H. p-Toluene sulfonates of 20-hydroxy-pregnanes. 1690-4.

MARVEL, C. S., MYERS, R. L., & SAUNDERS, J. H. The preparation of 2-alkylbutadienes. 1694-9.

AHMAD, K., & STRONG, F. M. The synthesis of unsaturated fatty acids. 1699.

TOMISEK, A., & CHRISTENSEN, B. E. Quinazolines; the synthesis of 2-(and 3)- $\alpha$ -aminobenzyl-4-quiazolones. 1701.

SNYDER, H. R., & ELIEL, E. L. An alkylation with the methiodide of 1-methyl-3-dimethylaminomethyl-indole (1-methylgramine). 1703-5.

JOHNSON, O. H., & NEBERGALL, W. H. The preparation of substituted tricyclohexylgermanes. 1706.
